

THE GENERAL CONTRACTORS  
ASSOCIATION OF NEW YORK, INC.  
NEW YORK, NY, NOVEMBER 7, 1995.

TERRY G. BUMPERS,  
Director, National Alliance for Fair Contract-  
ing, Washington, DC.

DEAR MR. BUMPERS: I enjoyed your letter to Brian Lockett. If the occasion arises, you can distribute this letter to anyone who questions the commitment of heavy construction contractors to union contracting. The General Contractors Association of New York, Inc. represents the heavy construction industry active New York City. We have over 700 contractors using the collective bargaining agreements, that have negotiated with fourteen different locals of the building and construction trades. Our members are firmly committed to union contracting because it is the only sure way to obtain a steady supply of trained and capable workers in New York City over the long term. The support of prevailing wage legislation and union contracting is our protection for the future for all of our members.

The prevailing wages in the heavy construction industry of New York City, at over \$35.00 an hour in wages and fringe benefits, would seem high to many. But the annual take home pay of most of our workforce still leave them eligible for most subsidized housing programs in New York City. We know that we pay a fair wage that allows our workers to support their families and to contribute to their communities in their non-working hours. But we're not paying them enough to live on Park Avenue.

We also know what happens in New York City when there is no prevailing wage legislation like Davis-Bacon protecting the wage levels of construction workers. We have seen in the unregulated building sector in New York City that wages can be driven down to under \$10.00 an hour by preying on the desperation or illegal status of workers. At that level workers earn barely enough to survive. We know that the unregulated industry has no steady workforce, appalling safety records, and little stake in the continuing health of the communities in which its workforce must reside.

Our heavy construction contractors survive and thrive on the effectiveness of their workforce, not on the shine on the equipment. The best assets leave each day at the end of the shift. Those assets are most productive when they are paid enough to work without family worries and to contribute to their communities. We know that decent wages are the key to attracting competent people to enter and stay in the heavy construction workforce.
